WOMAN'S CLUB HAS CLEAN-UP DAY

The Rochester Woman's Club bustled with activity on Tuesday morning when the members met for the annual clean-up day meeting. Silver and china are now sparkling and all is in order for summer activities. A delicious covered dish luncheon was enjoyed by the industrious workers at noon.

At the business meeting in the afternoon, plans were discussed for the supper and bazaar to be held on June 27th. Mrs. David Fearing is chairman of the bazaar and will be assisted by Mrs. Henry B. Smith as co-chairman. Mrs. Greenwood Hartley and Mrs. Henry Hartley are co-chairmen in charge of the supper. The bazaar will be opened at 3:30 and the supper will be served at 6:30 P.M.

Announcement was made that so far only one application had been received for the Raymond C. Hartley scholarship which is offered each year by the club. This scholarship is available to any student who is going to continue study in another school or college after graduation from high school.

Plans for the X-ray survey are progressing well. Anyone over nineteen is eligible to have an X-ray. Those under the age of nineteen may also be done with a written request from their family physician. The date is Friday, June 14th, from 2:30 to 5:30 P.M. and 6:30 to 9:00 P.M. at the Rochester Woman's Club.

A donation was made to the National Braille Press, Inc., printing house for the blind.

A report was made by Mrs. Greenwood Hartley on the annual Boy Scout supper held at the clubhouse on May 23rd. She and Mrs. Frank T. Howland were co-chairmen.

X-RAY SURVEY IN ROCHESTER

Dorothy M. Shaw, Field Program Consultant for the Plymouth County Health Association, which along with the board of health is conducting the Rochester Special Groups' X-ray Survey on June 14, pointed out that the need to fight tuberculosis by finding unsuspected cases in their early stages has not lessened despite the gains that have been made in decreasing the death rate from the disease in recent years. Miss Shaw stated that contrary to some people's belief the number of new cases of TB reported each year has not decreased in the same proportion as the death rate from the disease.

This statement is given only to remind residents that getting an X-ray is more important than ever. This is especially true of certain age and occupation groups in which TB seems to strike most frequently. These

groups, called high incidence groups, are men over 40, both sexes over 65, foodhandlers, including cranberry workers, industrial worker and employees and occupants of nursing or rest homes. Regular X-rays are a "must" for anyone belonging to one of these groups, and it is sincerely hoped that this year's survey will be taken advantage of by these special groups.

X-rays will be taken at a mobile X-ray unit parked at Woman's Club from 2:30 to 5:30 and from 6:30 to 9:00. The procedure takes only a few minutes and an appointment is not necessary.

Anyone in town over 19 years of age is eligible for the X-ray.
